

THE CHARLES RIVER REMEMBERED

WCHA member Dave Kingsbury drew this sketch of the canoeing scene on the Charles showing the important landmarks along the river. Dave is the son of Alden Kingsbury and worked with him in his shop (14) building canoes. Before starting his own shop, Alden Kingsbury began building with J.R. Robertson, then for Emerson and Waltham. He moved to Washington State, where he and partner John Sunderhauf operated the Monohon Boat and Canoe Company. Kingsbury returned to Massachusetts in 1913 and began his own enterprise.

See Patrick Chapman's *The Willits Brother and Their Canoes* (Jefferson, N.C.: McFarland Publishing, 2006) for more information on the Monohon Boat and Canoe Company.
